Circle the way it came from and the way it went. Color one star for faint, three for super bright!

Orby says:
The space station looks like a very bright star moving smoothly across the sky. It doesn't blink, and it crosses the sky in a few minutes!

YOUR MISSION

1. Ask a grown-up when it flies over.
2. Look up and wave as it zooms by!
3. Fill in your log, then print your certificate.

GROWN-UPS: scan to see when it flies over your home
